War Brings Fur Prices Down Notch

By Sue D. O'Nym.
Um! October is in the air! Not because there are any dry leaves, but because that amber like October, but because there are so many things in the stores down town that look like October—yes, and December. There are windows full of tempting garments and materials and advertisements full of tempting prices and lucky is the foresighted woman who has planned through summer for this fall onslaught upon her purse.

Take the matter of furs, for instance. In spite of the fact that woman chose to adorn herself all through the summer (and isn't it fortunate, by the way, that she chose this particular summer) she has not forgotten furs and fur dealers find themselves swamped with skins on account of the lack of a market in Europe. Accordingly prices are down to a low water mark which has not been reached in years. Just as a matter of illustration I saw a mink muff yesterday, in one of the stores which is playing up its furs prominently, which last year was marked \$125. Now it is marked \$85! This is an unheard of reduction for mink.

Fox is "the" fur of the season. The varieties shown are blue, cross, red, taupe, black and white. The red fox is to be shown conspicuously for misses and young girls, and the pieces are made up very girlishly, as a result. Slightly cheaper than the fox, but quite as popular are the skunk or martin, Hudson seal, mink, Jap mink and beaver, while the lowest priced are opossum, brook mink, raccoon, wolf and Chinese lynx. The double fur neck piece is much more extensively shown than the silk-lined collar of the past few years. The barrel muff is most exclusive and many of the muffs are lined with crepe de chine.

If you wish to be informed, when you take in the fall sales that will mean so much to your winter wardrobe, heed this. The smartest materials for winter gowns are to be velvet, corsairs, velours and tulle. For the dressier afternoon gowns, crepe de chine are being shown. One of the stores has two novel pieces of crepe de chine that are almost irresistible from several points of view. Plaid is to be very strong this winter as you have probably guessed from the displays in some of the windows, but not every woman can support the large, dark stripes and bars of the plaid materials no matter how attractive they may look to her. It is the heart of such a woman that will be rejoiced over these new crepe de chine. Of beautiful quality (and not so very expensive considering that they are 40 inches wide) they feature the large plaids but in charmingly subdued colors. They would be beautiful to match the suit or in entire gowns.

In fact the newest things are black striped in monotone. Blue and black are the "proper" colors, though stunning combinations are to be shown in ready made garments, featuring striped silks in varied colors combined with a plain color. One store is showing some beautiful velvets and corduroys in a variety of colors. For the benefit of the misses who are soon to leave for college several of the stores are advancing their fall displays of misses' suits. If you are going to purchase one for your daughter, look for something in whipcord or poplin. If you are thinking of one for yourself, broadcloth will again be cool this season, as well as velvet. Unusually reasonable prices are being shown for the chic little blouses that one of the stores is showing in silk plaids in tulle and crepe de chine—just the thing for the girl who is about to leave for school.

October is coming to compete with June in the matter of brides. One young woman who is to be married in October and is to go New York to live, laughingly told me yesterday of the difficulty of trying to furnish a flat at long range. The young couple is trying to take advantage of the August sales in furniture and desk is fairly swamped with ads from New York papers. There is a hint for the October brides who have both the ads and the stores and the new homes right here! It is just as well that the young housekeeper, anyway, to begin to study the advantages of seasonable bargains.

"But where do the men come in?" asked a youthful reporter who just peeped over my shoulder. "I suppose they just put up the money and say 'got to it!'"

No, kind sir, perhaps it would be just as well for the men, too, to so bargain hunting once in a while instead of smiling tolerantly when the women of the houses speak of sales. Do not forget that she is saving your money as well as her own.

Because this summer was so unseasonable for suits of light weave, you will find that you can buy a very good looking one that would not be altogether inappropriate for all-year-round wear, at a much reduced price. Incidentally, according to announcement, the new fall styles in overcoats and suits and hats are coming in with, to use a fashionable term, "some new slants in coat and waistcoat shapes."
